

Muhammad Temirsultanov

Frontend-developer (junior) • from \$1300 • remote-only

General

Muhámmad, 21 years old. I have a freelance [experience](#) in markup-writing: landings, edits, multipage sites, animations, optimizations etc.

Skills

- HTML, CSS: fluent
- Javascript: fluent due reading [javascript.info](#)
- Vue: good level due reading ~80% of [documentation](#) and [course](#) by Ilya Klymov
- Git: typical basic usage — init, commit, push, pull, checkout, status, gitflow etc.
- Touched: React, Angular, Python, PHP, Typescript
- SQL: the ability to write regular sql-queries
- TCP/IP and how the Internet works: ~high level for a frontend developer due [course](#) by Andrey Sozykin and Cisco CCNA
- Design: well versed in Figma and UI/UX basics. For instance, I can draw a new component based on the rest of design
- English: fluency reading documentation — learn.js and vue documentation were read in english. The ability to speak on technical topics
- Solved more than 100 problems in the LeetCode: [@temirsultanov](#)

Projects

- Vue & Supabase Pet-Project: Habits tracker, <https://temirsultanov.github.io/habittracker>
- React Gatsby single screen website: Mozy, <https://mozy.gatsbyjs.io>
