Muhammad Temirsultanov

Frontend-developer (trainee-junior)

General

Muhámmad, 20 years old. I have a freelance experience in markup-writing: landings, edits, multipage sites, animations, optimizations etc.

Skills

— HTML, CSS: fluent

— Javascript: high level due reading 2 part and some chapters of the javascript.info

— Vue: middle level due reading ~70% of documentation and course by Ilya Klymov

— Git: typical basic usage — init, commit, push, pull, checkout, status etc.

— Touched: React, Angular, Python, PHP

— SQL: the ability to write regular sql-queries

— TCP/IP and how the Internet works: ~high level for a frontend developer due course by Andrey Sozykin and Cisco CCNA

— Design: few skills and some experience

— English: fluency reading documentation, learn.js and vue guide were read in english. Grammar and speaking — with difficulties

— Bad: Typescript, testing, dev-ops tasks, configurations

Projects

— Vue Pet-Project: Habits tracker, https://temirsultanov.github.io/habitracker

— React Gatsby single screen website: Mozy, https://mozy.gatsbyjs.io
